Requirement

Title	Service categories
Identifier	SWIM-SERV-009
Requirement	<p>A service description shall include the categories to which the service belongs based on the PCP information exchange areas:</p> <ul style="list-style-type: none">• Aeronautical information exchange;• Meteorological information exchange;• Cooperative network information exchange;• Flight information exchange.
Rationale	<p>Service category information allows discovering services by a series of classification criteria.</p> <p>This requirement supports decision making in terms of service suitability in relation to a particular usage context.</p>
Verification	<p>Completeness: Verify that the PCP category is present.</p> <p>Consistency: Not applicable.</p> <p>Correctness: Not Applicable.</p>
Examples /Notes	<p>Note: It is best practice to include additional category information, and state the service categorisation scheme used, by inclusion or reference. The SESAR 1 ISRM Portfolio [RD 5] is a good source for service categories.</p>
Level of Implementation	Mandatory

Guidance

Examples

See the [Service categories](#) section within the [Donlon TOBT Setting Service Description](#).

Guidance for JSON service description

Unable to render {include} The included page could not be found.

info

Guidance on the full set of categories as available within the European SWIM Registry is provided at requirement [SWIM-REG-0004 Service categorization](#).

Schema

The guidance concerns JSON Schema v0.0.3 (see [Schema releases](#)).

```

        "serviceCategorisation":
        {
            "description" : "A taxonomy used to classify a service by the
type of service provided or by some other technological or architectural solution. [SWIM-SERV-009]",
            "$ref" : "#/definitions/ServiceCategorisation"
        },

        "ServiceCategorisation" :
        {
            "description" : "A taxonomy used to classify a service by the type of service
provided or by some other technological or architectural solution. [SWIM-SERV-009]",
            "type": "object",
            "additionalProperties": false,
            "required": ["serviceType", "lifeCycleStage", "businessActivityType",
"intendedConsumer", "informationCategory", "applicationMessageExchangePattern"],
            "properties":
            {
                "informationCategory":
                {
                    "description" : "TBD",
                    "type" : "array",
                    "items" : { "$ref": "#/definitions
/CodeInformationExchangeCategory" },
                    "minItems": 1
                },
            }
        },
    },

```

Rules expressed for the cases as defined in Registry URD.

case	rules
COMPLIANT	Mandatory, one or more values
CANDIDATE	same
DEFINITION	same

Guidance

Select **one or more values** in field informationCategory, within field serviceCategorisation.

Enumerated values

Type CodeInformationExchangeCategory defines the Information exchange area as from PCP.

AERONAUTICAL_INFORMATION_EXCHANGE
METEOROLOGICAL_INFORMATION_EXCHANGE
COOPERATIVE_NETWORK_INFORMATION_EXCHANGE
FLIGHT_INFORMATION_EXCHANGE
SWIM_INFRASTRUCTURE_EXCHANGE
<i>Note: This value is not in the scope of SWIM-SERV-009 and should not be used. It is in the enumeration to give complete coverage of the PCP.</i>

Example

```
"serviceCategorisation": {  
  
  "informationCategory": [  
    "FLIGHT_INFORMATION_EXCHANGE"  
  ],  
  
}
```

A complete JSON example is available in page [JSON example - Donlon TOBT Setting service description](#).

More information

More information on service categories can be found on the [Using Service Categories](#) page. It is especially useful when listing "additional category information" as mentioned in the best practice in the requirement.
